### **DETAILED ACTION**

Acknowledgment is made of the amendment filed 5/12/06. Claims pending are 29-35. Claims 29 and 35 have been amended.

#### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. The rejection of Claims 29-35 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement, is maintained for the reasons of the record.

#### ***Double Patenting***

3. The provisional rejection of Claims 29-35 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 29-48 of copending Application No. 11/157,198 ('198) is maintained for the reasons of the record.

#### ***Response to Arguments***

4. Applicant's arguments filed 5/12/06 have been fully considered but they are not persuasive.

The Applicant argues that the written description rejection is "contrary to a prior examiner's suggestion [to limit the patient population to those not suffering from depression], which was relied upon by the Applicant, the fact that the PTO allowed the

amendment and did not consider the change as an addition of new matter, and the PTO's allowance of four patents containing the same language in their respective claims". See p. 6 of the reply. In response, the instant claims are examined on their own merits and the Examiner is not bound to make the same rejections or repeat the same mistakes as were made in the prosecution of the parent or any related applications. The previous prosecution history is not binding as to the examination of the instant application.

Further, the Applicant argues that the claims are fully supported by the specification. See p. 7 of the reply. In response, the instant specification mentions depression as one of the conditions caused by or associated with obesity, which can be treated with the same composition. However, the specification does not disclose the instantly claimed method of facilitating weight loss in patients not suffering from depression. It is the Examiner's position that the disclosure does not reasonably convey that the inventor has possession of the subject matter of Claim 29 at the time of filing of the instant application.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
